Venture Capital Journal (VCJ)'s 40 Rising Stars under 40 (January 2026)

[CI Investment Director Felicity O'Kelly is named one of Venture Capital Journal's 40 Rising Stars under 40.](#) In its 7th edition, women continue to dominate the list – 40 people are chosen: 25 are women, and 15 are men. That compares to 24 women and 16 men last year and 17 women and 23 men in 2024. While this year's list is more gender diverse, it is less international than previous efforts due to fewer nominations from outside the US. The list celebrates some of the brightest talents in venture capital.

VCJ selects individuals who is under 40 as of January 1, 2026, and have achieved a notable accomplishment in the last 12 months, such as receiving a promotion, founding a firm, leading a significant deal, implementing an ESG policy, or enhancing diversity and inclusion in their organization or the industry. CI had no involvement in the selection of honorees. This was not a paid-for activity.

Fin-Erth Climate Awards 2025 (December 2025)

[CI Investment Director, Felicity O'Kelly is named one of Fin-Ert Climate Awards' Leading Women in Climate for 2025.](#)

Returning for its second year, Fin-Erth, a global community of women working in finance, policy, investment, law, innovation and operations, is shining a spotlight on another 101 women from around the world who are unlocking climate and sustainability solutions.

Now in its second year, the Awards have expanded significantly, with nominations spanning 65 countries. The initiative spotlights what Fin-Erth calls the “missing middle” of climate action: the scientists, investors and innovators whose daily efforts underpin progress but seldom receive attention.

Entries were submitted through 50 partner organisations, alongside nominations from across the global climate sector. Women were recognised across ten categories, including Climate Data and Analytics, Natural Capital and Biodiversity, Insurance, Energy Transition, Food and Agriculture and Mavericks

Felicity self-nominated herself for the award.

Time Magazine and Statista's Top Greentech Companies of 2025 (March 2025)

The TIME and Statista GreenTech List 2025 highlights the top-performing GreenTech companies globally and in the United States, recognizing their contributions to sustainability and environmental innovation.

The list includes 250 companies from over 30 countries across six continents. These companies are developing products, services, or technologies aimed at mitigating or reversing the impact of human activities on the environment.

[The selection process](#) for the GreenTech List 2025 involves several key steps:

- **Positive Environmental Impact:** Companies are evaluated based on the quality and impact of their product/service portfolio, including metrics like carbon capture, offsets, and renewable energy generated.
- **Innovation Drive:** The quantity and value of a company's intellectual property portfolio are analyzed, using the Patent Asset Index from LexisNexis® PatentSight+.
- **Financial Strength:** Revenue, employee, and funding data are scrutinized from publicly available sources, media monitoring, and databases.

Statista gathered data from over 8,000 companies through desk research, online application forms, and collaborations with data and market intelligence companies. The final score for each company is calculated as follows:

- 45% Impact score
- 45% Financial strength score
- 10% Innovation score.

The 2025 list includes several portfolio companies from CI's Catalyst Fund I:

75F, Aeroseal, Boston Metal, METRON, Svante, Turntide Technologies, and ZincFive. CI had no involvement in the selection of listed innovators. This was not a paid-for activity.

Fast Company Most Innovative Companies 2025 (March 2025)

[The list](#) highlights organizations that are making significant impacts across various industries and transforming the world through their innovations. This year's list includes 609 companies across 58 categories, such as advertising, applied AI, biotech, retail, and sustainability.

[Fast Company](#) editors and writers evaluate each company based on four criteria:

- **Innovation:** The company must demonstrate clear innovations that set it apart from others in its industry. This can include new products, services, business models, or strategic acquisitions.
- **Impact:** The innovation must have a measurable impact on the company and its industry, supported by data such as revenue growth, user growth, or qualitative impacts on culture.
- **Timeliness:** The innovation should have occurred within the past 12 months, or the company must show meaningful iterative advances and their impact over the past year.

- Relevance: The innovation should connect to current events or larger issues faced by the industry or society.

The selection process involves multiple rounds of judging and conversations to ensure each chosen organization meets the high standards for innovation and impact.

The 2025 list includes three portfolio companies from CI's Catalyst Fund I:

- Cyclic Materials
- FeroLabs
- Zum

CI had no involvement in the selection of listed innovators. This was not a paid-for activity.

2025 Global Cleantech 100 (January 2025)

[Cleantech® Group](#) provides research, consulting and events to catalyze opportunities for sustainable growth powered by innovation. At every stage from initial strategy to final deals, it brings corporate change makers, investors, governments and stakeholders from across the ecosystem the access and customized support they need to thrive in a more digitized, de-carbonized and resource-efficient future.

Each year, Cleantech Group publishes the [Global Cleantech 100](#), a comprehensive showcase of the most promising private companies in the cleantech ecosystem. The report will introduce you to innovators with outstanding technologies, original business models, and bold plans that can enable us to act on the ever-increasing climate and environmental crisis.

Each was weighted and scored to create a short list of over 300 companies that were reviewed by the 80 members of Cleantech Group's Expert Panel, which included CI Investment Principal, Felicity O'Kelly. The results provide the collective opinion of nominations from the public, Cleantech's expert panel, i3, awards and Cleantech Group.

The 2025 list includes seven portfolio companies from CI's Catalyst Fund I:

- AeroSeal
- Boston Metal
- Econic
- LuxWall
- Svante
- 44.01
- Cyclic Materials

CI had no involvement in the selection of listed innovators. This was not a paid-for activity.

Venture Capital Journal (VCJ)'s 40 Rising Stars under 40 (January 2025)

[CI Investment Director Hannah-Mei Andrews is named one of Venture Capital Journal's 40 Rising Stars under 40.](#) The 6th annual list celebrates some of the brightest talents in venture capital, and this year's cohort is the most diverse ever, with 24 women and 16 men recognized, nearly the opposite of last year's.

VCJ selects individuals who is under 40 as of January 1, 2025, and have achieved a notable accomplishment in the last 12 months, such as receiving a promotion, founding a firm, leading a significant deal, implementing an ESG policy, or enhancing diversity and inclusion in their organization or the industry. CI had no involvement in the selection of honorees. This was not a paid-for activity.

PEI Women of Influence in Private Markets (October 2024)

PEI Group's editorial teams select the list based on criteria such as recent accomplishments, innovative actions, and influential leadership. Cindi Bough, CI's Managing Director for Investments (UK & Europe), is named in the Venture Capital list. This year a total of 42 women (down from 60 in previous years) were included in the final list across all categories; and Cindi is one of 7 in Venture Capital. Cindi's exceptional leadership, passion and commitment to investing in climate tech have earned her a well-deserved place in the exclusive Private Equity International's Women of Influence 2024 list.

PRI Awards 2024 (October 2024)

CI self-nominated and submitted an entry into the category Recognition for Action – Climate in June 2024. As part of this entry, we also submitted ourselves for consideration (no entry required) for a special award recognizing submissions from PRI signatories which are focused on private markets. These special awards are open to PRI signatories that self-identify and can demonstrate a private market focus within their submission, which CI can. The selection and evaluation guidelines for the PRI Awards 2024 are set out [here](#). Shortlisted submissions will be announced prior to **PRI in Person** with the winners being announced during PRI in Person in Toronto (October 2024). Each category will have a single winner, selected from the shortlisted submissions. The award will include a trophy.

Real Deals ESG Awards 2024 (October 2024)

CI was shortlisted in the category of Impact Investor of the Year on 12th June 2024. Firms can self-nominate, which CI did, and submit an entry into one or more categories. All nominations are assessed by the Real Deals editorial team. Successful entries will then be passed on to its panel of judges, who will meet, deliberate and decide a winner in each category. The shortlist is published in June and winners at the Awards Dinner on 17th October. This was not a paid-for activity. See more [here](#).

Environmental Finance Sustainable Company Awards 2024 (September)

CI submitted an entry into the Sustainability Reporting of the Year category on 18th June 2024. These Awards seek to shine a light on those companies that are actively driving change in their approach to responsibility and sustainability, pivoting their resources, operations and entire business model to align or even push past sustainability and climate targets. The Awards are a true representation of industry excellence across the world stage. The Awards are independently judged by a panel of investors and industry experts chosen for their knowledge, objectivity and credibility along with the Environmental Finance editorial team will review the submitted entry material. Judges score each entry individually and any conflict of interest will be removed, the judge's score will be confidential.

The Judges' decision is final and neither Environmental Finance nor the judging panel will enter into any correspondence regarding individual entries and/ or award winners.

Winners will be announced on the Environmental Finance website in September 2024. This was not a paid-for activity. See more [here](#).

Climate 50 2023 (April 2024)

The Climate 50 annual ranking is organized by Contrarian Ventures and 2150. Contrarian developed the ranking methodology. The list was started in 2020 as a means of raising the climate tech profile on the agendas of governments, corporates and LPs, and as a reference point for LPs and entrepreneurs. Today the annual list seeks to spotlight the top 50 most recognized climate tech investors.

Investors are ranked on a collection of direct and indirect metrics. The direct metrics take into account the investment activity of the investor and use the UN's SDG framework, only including investments that directly and indirectly contribute to combating climate change through at least one of nine SDGs. There are six direct investor metrics which are taken into account while calculating the overall investor score. Data for the direct metrics is provided by Dealroom.co. Each direct metric has its own weighting and combined makes up 85% of the total investor score. There is one indirect metric which takes into account the non-investment related activity of the investor. The only indirect metric for 2023 is the Public Score which represents 15% of the total investor score. This is made up from the number of public votes for an investor as cast by the general public during the voting period. Voters can vote for their own firm. **Read the full methodology [here](#).** CI was placed at #47 in the 2023 list. This was not a paid-for activity.

Global Corporate Venturing Powerlist 2024 (June 2024)

This list reflects GCV's view of the 100 most influential leaders of corporate venturing units globally. Nominees may self-nominate or be nominated independently. Criteria for consideration include their successful investment track record, unique approach, mentorship and leadership skills or community outreach and evangelism. GCV looks at a number of quantitative and qualitative factors in making the final selection for the Powerlist. Powerlist award winners are recognized at an in-person awards ceremony as part of the GCV Symposium in London on 24-26 June 2024. The nomination process will close on 5 April 2024, and Powerlist winners can expect to be notified by the beginning of May.

CI submitted a nomination for Cindi Bough, Managing Director, but had no involvement in the selection of the PowerList 2024. This was not a paid-for activity.

Global Corporate Venturing Top 50 Rising Stars 2024 (March 2024)

Independent nomination and selection process. Those selected for the list represent the top 2% of professionals in this industry, and the selection process involves analyzing hundreds of nominations from CVC managers across a variety of sectors and regions.

Candidates must meet one of these criteria:

- Less than five years' experience in the industry who have started to make a name for themselves and their CVC unit for their deal sourcing and investment skills and are on the fast track to greater seniority.
- Emerging Leaders with more than five years' experience who could be one day leading their CVC unit or up-and-coming unit heads.

The selection was based on a number of factors including deals, liaison with portfolio companies and activity in the startup ecosystem. A crucial factor in the selection was the feedback we received from team leaders as well as from startups and collaborators.

Felicity O'Kelly, Investment Principal, was selected for the 2024 list. She was notified directly in December 2023, and the list is unveiled at the Global Corporate Venturing & Innovation Summit in Monterey, California March 12-14, 2024.

CI had no involvement in the selection of winners. This was not a paid-for activity.

2024 Global Cleantech 100 (January 2024)

[Cleantech® Group](#) provides research, consulting and events to catalyze opportunities for sustainable growth powered by innovation. At every stage from initial strategy to final deals, it brings corporate change makers, investors, governments and stakeholders from across the ecosystem the access and customized support they need to thrive in a more digitized, de-carbonized and resource-efficient future.

Each year, Cleantech Group publishes the [Global Cleantech 100](#), an annual list of the most innovative and promising companies that will take progress commitments to actions in global efforts to reach net-zero. In the 2024 compilation, Cleantech received 25,435 nominations from over 65 countries —a 61% increase from the 2023. Each was weighted and scored to create a short list of 330 companies that were reviewed by the 80 members of Cleantech Group’s Expert Panel, which included CI Investment Principal, Felicity O’Kelly. The results provide the collective opinion of nominations from the public, Cleantech’s expert panel, i3, awards and Cleantech Group. **The 2024 list includes six portfolio companies from CI’s Catalyst Fund I:**

- Aeroseal
- Boston Metal
- Carbon Upcycling
- Econic
- Kairos
- Svante

CI had no involvement in the selection of listed innovators. This was not a paid-for activity.

Private Equity International Awards 2023 (January 2024)

This annual awards process relates to activity over the past 12 months from 1 November 2022 to 31 October 2023. CI submitted an entry into the Venture Capital Firm of the Year (ESG) category. The PEI editorial team compiles the shortlists based on the information submitted by nominees together with conversations with its industry sources and its own expertise of private markets and nominees. There is no judging panel. Shortlists are then published and open for public voting for a month. Nominees are not able to vote for themselves. The winners are announced in January. This was not a paid-for activity.

Future 40 Climate Change Champions (November 2023)

This inaugural list was compiled by private equity trade magazine, Real Deals, in partnership with specialist PE recruitment firm, PER. Real Deals received more than 80 submissions for the Future 40 Climate Change Champions. Its team of industry specialists reviewed each entry, and selected the 40 standout candidates in a highly competitive field. This selection was made solely based on the nominees' submissions. The four [judges](#) focused on evaluating innovation across crucial aspects such as the articulation of the organization's climate strategy, its effective implementation, and the measurement and transparent communication of these initiatives. CI did not pay a fee to enter the process. The [final selection of Champions](#) was announced on 27th November 2023.

Corporate & Financial Awards 2023 (November 2023)

These awards are managed by Communicate Magazine. CI's new website, launched in July 2023, was entered into the Best corporate website – Unlisted category by its website development agency, Copia Digital. The [judging panel](#) for the Corporate & Financial Awards comprised of leading industry experts who are based in-house. The agency spot is filled by the winner of the top accolades, the 'Annual report of the year', 'In-house team of the year' and 'Agency or consultancy of the year'. A full explanation of the eligibility rules can be accessed [here](#). Copia Digital paid an entry fee of £320. CI did not pay a fee nor did it reimburse Copia Digital. Winners were announced in London on 15th November 2023. CI received a Silver Award.

ESG Investment Leader Europe Awards 2023 (November 2023)

<https://awards.esginvestmentleader.com/live/en/page/home>

These awards, managed by Clear Path Analysis, are designed to provide a platform for 200+ leading asset managers, insurance investment teams, plus defined benefit as well as defined contribution pension funds to be recognized for their commitment to excellence in ESG investing, investment operations, risk, and reporting. Clear Path Analysis provides market insights for the institutional investment sector, delivering industry shaping ideas and networking opportunities through in-person and virtual events, reports, and online market insight platforms. The ESG Investment Leader Awards is produced in conjunction with the ESG Investment Leader | Europe 2023 summit. CI had no involvement in the final selection and scoring. This was not a paid-for activity. Winners were announced in London on 2nd November 2023.

To ensure that the awards are impartial, ethical, and transparent, Clear Path Analysis asks its judges to sign a charter agreeing to:

- Dedicate sufficient time to fairly read, judge and score the entries
- Delete all judging materials and marks immediately after the judging period
- Declare any conflicts of interest
- Not allow personal relationships or experiences to influence judging
- Keep judging discussions confidential and contained only to the judging panel
- Not share confidential material, judging papers or entries with anyone
- Not notify anyone that they have won or that they are shortlisted ahead of the official announcements

IJ Global ESG Awards 2023 – Rising Star (October 2023)

<https://awards.ijglobal.com/ESGAwards#Rising-stars>

This award recognizes a Rising Star in the infrastructure and energy industry who has a primary focus on ESG. A “Rising Star” is defined as someone who holds an ESG-focused role and is below the level of Director (or equivalent position). To be considered for the award, candidates must have made a demonstrable impact in the infrastructure and energy community on the ESG front, be deemed responsible for effectively stimulating change within an organization and have proved crucial to the design, implementation, or deployment of ESG principles. These Awards are open to any company or individual in the infrastructure and energy space that can provide demonstrable evidence of impacts across any or all ESG metrics. Entries are accepted from across the globe. Projects, transactions and initiatives must relate to achievements in the last financial year (between 1 April 2022 and 31 March 2023). All evidence supplied must take this into consideration. CI had no involvement in the final selection and scoring. This was not a paid-for activity. Winners were announced in London on 19th October 2023 – **CI's Richard Searle was named Rising Star.**

A panel of [independent judges](#) included:

- Carlos Barrera – chief executive of Atlas Renewable Energy
- Gwen Colin – partner and ESG director at Vauban infrastructure Partners
- Simon Currie – founder of Energy Estate
- Clarissa Drysdale-Anderson – partner, ESG transaction and advisory at ERM
- Anne Foster – global head of sustainable investment at Quinbrook
- Khasan Khasanov – consultant to the IFC for PPP
- Ruairi Revell – head of sustainability for core infrastructure at abrdn
- Kailash Vaswani – president of corporate finance at ReNew Power
- Jemima Atkins – investment team member, Pioneer Point Partners
- Amy Cleaves – senior associate, Hogan Lovells
- Rachel Fleming – vice president infrastructure debt, BlackRock
- Mark Henderson – chief investment officer, Gridserve
- Dr Patricia Rodrigues Jenner – investment committee member, GLIL Infrastructure
- Arash Mojabi – director and UK sustainable finance lead, ING Bank
- Paula-Ann Novotny – senior associate, Webber Wentzel
- Emi Takehara – chief financial officer, Greenergy Renovables

The BuiltWorlds 2023 Venture Investors 50 (October 2023)

<https://builtworlds.com/insights/2023-venture-investors-50/>

The BuiltWorlds 2023 Venture Investors 50 is a list of the most active venture capital firms and strategic corporate funds investing in the built world today. Since 2017, BuiltWorlds has tracked venture deals in the construction and broader real estate ecosystem with a global purview. The 2023 list includes inventors from previous investor lists, alongside newcomers that have emerged in the built-worlds VC space more recently. The intent of this top investors list is to show the breadth of investors in this slow-to-adopt industry and the continued acceleration of innovative financing to develop real-estate tech ventures for years to come.

BuiltWorlds' first Venture Investors list was released in 2018 and cataloged only 27 institutional investors. Last year's list, **2022 Venture Investors 50**, was inclusive of investments over the prior 24 months (from December 1st, 2020 to November 30th, 2022,) tracking a total of 524 deals from 1334 unique investment groups. BuiltWorlds 2023 Venture Investors 50 list tracked 557 deals over just 12 months (from October 1st, 2022 to September 30th, 2023), attracting nearly 2,000 unique investors.

The 2023 list was derived by quantifying how active institutional and corporate venture investors have been over the last 12 months. The investment groups that constitute this list are in order beginning with the most active and have participated in the largest number of deals over the last years in ventures that fall within the BuiltWorlds Venture research scope. This list does not factor in criteria such as deal size, deal round, or being a lead investor. In instances where two groups have completed the same quantity of deals, the tiebreaker was awarded to the firm with more recent deal activity. CI was ranked in position #16. CI had no involvement in the final selection and scoring. This was not a paid-for activity. The 2023 list was published on 6th October 2023.

PEI Women of Influence in Private Markets (July 2023)

This list, compiled by Private Equity International Group (PEI) recognizes trailblazing women in alternative assets. Felicity O'Kelly, Investment Principal in CI's Ventures team was included in the Venture Capital category in the 2023 compilation. PEI Group's editorial teams decide the list based on the following criteria:

- The nominee's achievements over the last 12 months (since 1 March 2022) in their careers, their firm or the private funds industry;
- Evidence of innovation or game-changing actions (eg, closing an innovative deal, securing an LP commitment or launching DE&I initiatives)
- Evidence of leadership, impact or influence on others within the industry and beyond.

To be eligible, nominees must work in the private funds industry, namely private equity, private debt, infrastructure, venture capital or real estate. PEI welcomes nominations for women working in a variety of roles at investment firms, LPs, as well as advisory firms. It also welcomes a diverse range of nominations and there are no age or geographical restrictions. Where a nominee is submitted by someone from their own firm, that person must also nominate a candidate from another firm to be eligible. Nominations were open until 22 March 2023, and the final list was published in July 2023. CI had no involvement in the final selection and scoring. This was not a paid-for activity.

2023 Global Cleantech 100 (January 2023)

[Cleantech® Group](#) provides research, consulting and events to catalyze opportunities for sustainable growth powered by innovation. At every stage from initial strategy to final deals, it brings corporate change makers, investors, governments and stakeholders from across the ecosystem the access and customized support they need to thrive in a more digitized, de-carbonized and resource-efficient future.

Each year, Cleantech Group publishes the [Global Cleantech 100](#), an annual list of the most innovative and promising companies that will take progress commitments to actions in global efforts to reach net-zero. You can find the selection criteria on page 6 of the Report which you can [download](#). In the 2023 compilation, the total number of nominations from the public, Cleantech’s expert panel, i3, awards and Cleantech Group totalled 15,752 from over 93 countries. This was a 44% increase from the 2022 nomination process. These companies were weighted and scored to create a short list of 330 companies that were reviewed by the 81 members of the Global Cleantech 100 expert panel. In Cleantech’s opinion, the list offers a fair representation of global innovation and private company creation. It is not Cleantech Group’s editorial voice, but the collective opinion of hundreds of individuals within the wider global cleantech innovation community. The 2023 list include several CI portfolio companies from Catalyst Fund I. CI had no involvement in the selection of listed innovators. This was not a paid-for activity.

Global Corporate Venturing (March 2023)

CI Investment Principal, **Hannah-Mei Andrews** was included in Global Corporate Venturing's annual Top 50 Rising Stars list for 2023. Those selected for the list represent the top 2% of professionals in this industry, and the selection process involved analyzing hundreds of nominations from CVC managers across a variety of sectors and regions.

This list is one of GVC's two annual awards lists that was announced at the Global Corporate Venturing & Innovation Summit in Monterey, California, on March 14, 2023:

Rising Stars with less than five years' experience in the industry who have started to make a name for themselves and their CVC unit for their deal sourcing and investment skills and are on the fast-track to greater seniority.

Emerging Leaders with more than five years' experience who could be one day be leading their CVC unit.

The selection was based on a number of factors including deals, liaison with portfolio companies and activity in the startup ecosystem. A crucial factor in selection was the feedback we received from team leaders as well as from startups and collaborators.

GCV published [short profiles of award winners](#).

CI had no involvement in the selection of winners. This was not a paid-for activity.

Climate Impact Partners (March 2023)

CI was invited to submit nominees for [Climate Impact Partners](#) (CIP) campaign to celebrate Women's History Month and International Women's Day during March 2023 by profiling the women leading on climate action across our organization, our clients, and our project partners. CIP asked CI to put forward a woman, or a strong supporter of women from within our organization, for consideration as leading the charge on tackling climate change. This could be a strong female leader driving change from the top, or someone on the front line delivering change on the ground. Nominees were asked what brought them into the climate space and why they think women have such an important role to play in tackling the climate crisis. Their proposer, Amanda McCrystal, CI CMO, was asked to answer questions on why she was proposing the candidates.

Dr Pratima Rangarajan, CI CEO, and Felicity O'Kelly, Senior Investment Associate were selected and profiled by CIP on its website and [social media channels](#) on 8th March 2023.

CI had no involvement in the CIP's selection of profiled candidates. This was not a paid-for activity.

New Private Markets Impact 30 ranking 2022 (July 2022)

Published by PEI Media. This version of the Impact 30 ranking is based on the amount of dedicated impact capital raised by firms between 1 January 2017 and 31 March 2022. NPM counts the full amount of a fund if it has a close in this timeframe, and we count the full amount of an interim close that has occurred, even if no official announcement has been made. It also counts capital raised through co-investment vehicles. In the case of a fundraising, it means the fund has had a final or official interim close after 1 January 2017. [In the 2022 ranking](#), Climate Investment was ranked #22 out of 30 included managers.

Definitions

Impact capital: For this ranking, NPM uses GIIIN's definition of impact, namely: "Impact investments are investments made with the intention to generate positive, measurable social and environmental impact alongside a financial return in private markets. Impact investments can be made in both emerging and developed markets, and target a range of returns from below market to market rate, depending on investors' strategic goals.

"The impact investment market provides capital to address the world's most pressing challenges in sectors such as renewable energy, sustainable agriculture, affordable/social housing as well as debt and equity investments in firms that focus on providing answers to such challenges."

Capital raised: This means capital definitively committed to a fund through an interim or final close within the specified time period. Structures that count towards the total figure are: limited partnerships, co-investment funds, separate accounts and seed capital/GP commitment. Investment strategies comprise private equity, private real estate, private debt, unlisted infrastructure and unlisted agriculture.

Not counted: Expected capital commitments, public funds, contributions from sponsoring entities, hedge funds, capital raised on a deal-by-deal basis, leverage, PIPE investments and ESG funds that prioritise financial return over impact.

The Impact 30 is not a performance ranking, nor does it constitute investment recommendations.

For a full methodology, email PEI Media's head of fund manager research, Daniel Humphrey Rodriguez (daniel.r@peimedia.com). See [here](#) for published methodology.

CI had no involvement in the selection process of the 30 managers. This was not a paid-for activity.
